Individual dental plan for Extend Health

Keep your smile healthy with dental benefits from Delta Dental

Delta Dental is America's largest, most experienced dental carrier and our networks, Delta Dental Premier® and Delta Dental PPOSM, are the largest in the nation. As the marketplace leader, we deliver unmatched quality and value in our plans and services and provide millions of Americans with affordable access to oral health care.

Having an insurance policy administered by Delta Dental not only helps you get the regular care you need to stay healthy, it also gives you financial protection from unexpected, and often expensive, problems.

Protect yourself against potential losses

Routine dental cleanings and exams are expensive enough. Root canals and crowns can cost as much as \$1,000 each and periodontal procedures may run as much as \$1,000 per quadrant. Delta Dental coverage can help reduce your out-of-pocket costs.

Manage your health better with regular dental check-ups

Your smile is a good indicator of your health. Did you know that your dentist can detect up to 120 different diseases, including diabetes and heart disease? Early detection of certain diseases, like diabetes, has proven to be one of the best ways to prevent further complications. In addition, regular preventive dental care can lower your blood sugar levels actually helping you manage your overall health, as well as health care costs.* Covered services include oral exams, cleanings, and X-rays, as well as more complex services like bridges, crowns, dentures, denture repairs, fillings, gum disease treatment, oral surgery, and root canals. Treatment for temporomandibular joint disorders (TMD) is also covered.

Easy access to dentists, easy to use benefits

Delta Dental provides access to the largest dental network in the country. And your benefits are easy to use. Participating dental offices will complete and file claims for you, so there is no paperwork for you and you don't have to wait to get reimbursed when visiting participating providers.
